

The World's In Her Eyes

It's all in her eyes
The world is her prize

Horizons offer undeniable truth
They lay before you and call out to youth
Explore all those options before you find truce
Learn all you can or suffer life's spoof

It's all in her eyes
The world is her pie
Just cut the right slice
And don't pay the price with a roll of fates dice

It's all in her eyes
The world's in her eyes

Time's on her side
And fills up her skies
Her knowledge is high
Oppressions subside
Education her ally

It's all in her eyes
The world's her baked pie
She cut the right slice
She wont pay the price with a roll of fates dice

It's all in her eyes
The world's in her eyes
It's all in her eyes
Place love in your eyes
