

Freestyle (Hey Mountain)

Hey Mountain,
I wanna freestyle all my love with you
I wanna freestyle all my love with you
I wanna freestyle, all my life with you

I wanna freestyle all my love on you
I'll slide along your bends and curves a lifetime or two
I wanna slip down to your valley and then
Gonna crawl my way back up on top and ride you again
I wanna freestyle all my love with you
I wanna freestyle all my love with you
I wanna freestyle, all my life with you

I'll surely freestyle from the morning till noon
Then take a little breather, pinch myself and resume
I'm gonna glide down from heavens view with a smile
Then continue to your bottom down your back ridge a while
I wanna freestyle all my love with you
I wanna freestyle all my love with you
I wanna freestyle, all my life with you

Unleash my freestyle all afternoon
'Cuz resting's for the dead, I need your explicit view
And heading freestyle straight into your arms
Lets cause an avalanche and plow deep into your charms
I wanna freestyle all my love with you
I wanna freestyle all my love with you
I wanna freestyle, all my life with you

Gently freestyle slipping all through the night
I think I'll go down on you endlessly until the sun lights
Traverse and freestyle across your shoulders of course
I wanna make sure every curve on you is fully explored
I wanna freestyle all my love with you
I wanna freestyle all my love with you
I wanna freestyle, all my life with you
Hey Mountain
